EDUCATION

IES IPS ACADEMY

B.Tech CSE (Data Science) CGPA: 8.88/10

Indore, M.P.

Dec 2020 - June 2024

EXPERIENCE

Full Stack Developer

July 2024 - Present

Sparkup Technology Pvt. Ltd. - Indore, M.P.

- Designed and developed multiple fintech software solutions, including merchant panels, admin dashboards, payout systems, and third-party API integrations; supported seamless processing of high-volume transactions for 500+ active merchants.
- Independently built a secure payout software that handles billions in financial transactions annually, with automated reconciliation features and role-based access control, improving payout accuracy and efficiency by 60%.
- Designed and built a scalable microservices architecture with Node.js for key fintech applications, enhancing reliability and reducing latency by 55%.
- Developed and maintained the Sparkuptech website from scratch in React.js, later migrated and optimized in Next.js for enhanced SEO, faster load times, and better maintainability; resulting in a 40% increase in user engagement.
- Spearheaded the end-to-end frontend development of the Quixpay and CashOnTech websites using Next.js, and redesigned multiple merchant portals with Angular; integrated BBPS services, bus and flight booking, and KYC modules, supporting 500+ active merchants.

Junior Developer

Jan 2024 - June 2024

Appzeto - Indore, M.P.

- Designed and developed clean, responsive website interfaces that aligned with each client's brand identity and business goals, resulting in improved user engagement and higher conversion rates.
- Collaborated directly with clients to gather requirements, define project scope, and deliver high-quality websites on time, achieving 100% client satisfaction and repeat business.

PROJECTS

AnimeMerch | HTML, CSS, React.js, Node.js, Express.js, MongoDB, Git, VS Code

- Designed, developed, and deployed an anime-themed e-commerce platform using the MERN stack, ensuring robust performance, scalability, and smooth deployment workflows.
- Implemented MongoDB for structured product data storage, built dynamic product listing features, integrated a secure shopping cart, and enabled secure online payments via Stripe API to deliver a seamless end-to-end user experience.

Ride Sharing Platform | Node.js, Express, Microservices, MongoDB, Docker

- Architected and developed a scalable ride sharing application using a microservices approach with Node.js and Express, enabling efficient matching of riders and drivers with real-time updates.
- Implemented core services for user authentication, trip booking, payments, and notifications, leveraging Docker for containerization and MongoDB for managing distributed data securely and reliably.

SKILLS

Languages : Javascript, Typescript, Java, HTML/CSS

Frameworks : ReactJS, Nextjs, Angular, Nodejs, Express, Tailwind CSS, Bootstrap

Developer Tools : Git/GitHub, VS Code, Photoshop, Canva, Figma

Familiar : AWS, Docker, RabbitMQ, Kafka

ACHIEVEMENTS

- Awarded **Employee of the Year** for outstanding performance and contributions.
- Successfully developed and deployed the frontend of **30+ websites** for diverse client requirements.
